DRIVE TO THE FUTURE
Kalgoorlie

Helping young people become safe, confident and licensed drivers.

Driving theory | Driving practice | Driver licensing | Ages 16–25 | No cost | Referral needed

About Drive to the Future

PCYC's Drive to the Future supports young people to work towards getting their learner's permit and driver's licence. The program helps participants build the knowledge, skills and confidence they need to become safe and responsible drivers.

How the program works

The program supports young people through each stage of the licensing journey.

1 LEARNER'S PERMIT

Support to prepare for and sit the eyesight and theory test.

2 LEARNING TO DRIVE

Driving lessons and support to begin supervised driving practice.

3 HAZARD PERCEPTION TEST

The program supports young people through each stage of the licensing journey.

4 GAINING DRIVING EXPERIENCE

Support to log supervised driving hours, including night driving hours where required.

5 DRIVING TEST

Preparation for the practical driving assessment.

6 PROVISIONAL DRIVER'S LICENCE

Support to complete the final step towards getting a provisional licence.

Who can join?

Drive to the Future is for young people aged 16 to 25 who need support to work towards getting their licence. The program is designed for young people who may be facing barriers to getting licensed on their own.

Additional support

Drive to the Future recognises that many young people need extra support along the way. Participants can get help with:

- ✓ Getting important ID documents, such as a birth certificate or Medicare card
- ✓ Literacy, numeracy and computer skills
- ✓ Résumé and job application support
- ✓ Licence application and enrolment support
- ✓ One-on-one or small group theory support
- ✓ Access to computers to practise the Learner's Test and Hazard Perception Test.

How to join

Young people can refer themselves to the program. Referrals are also welcome from parents, carers, family members, local stakeholders and police.

To find out more or make a referral, please get in touch.
